STRATEGIC REPORT
FOR THE PERIOD ENDED 28 DECEMBER 2024

The directors in preparing this Strategic Report, have complied with s414C of the Companies Act 2006.

Principal activity

The principal activity of the Company during the period was the design and retail of women's fashion clothing, footwear, and accessories through retail stores and online. Sabre Retail Fashion Limited trades as Mint Velvet for womenswear.

Business review

At the period-end, Mint Velvet traded from 109 locations: 54 standalone stores, 48 concession stores, and 7 websites. During the period, 3 new standalone stores and no new concession stores were opened; in addition, 1 stand alone store and 1 concession store were closed, 2 standalone stores were relocated.

Turnover for the period was £134.7m, which was a decrease of 3.6% on the prior period (2023: £139.8m).

Trade for the year was solid despite the ongoing economic backdrop and global supply chain challenges as a result of the Red Sea crisis. In line with our strategic objectives, owned mix increased by 2.9ppts in the year, predominantly driven by strong performance on mintvelvet.com. Concession performance was challenging in the period, trading -13.5% on the prior year, which reflects the evolving customer behaviour and changing retail landscape.

Profit before tax for the period was £14.2m, which was a decrease of 40% from the prior period (2023: £23.7m).

The company remains in a strong financial position with no external borrowing. At the period-end, the net assets of the company were £38.0m (2023: £53.0m), of which £29.0m was Cash at bank and in hand (2023: £40.9m).

Principal risks and uncertainties

The company is affected by the external environment and has found the below to be key risks and uncertainties to the business:

- Changing consumer demand in light of the current economic climate. To mitigate this, the Company continues to maintain flexibility in cost base where possible.
- Changes in UK government policy or fiscal measures, particularly those affecting taxation and employment, may impact operational costs, strategic planning and market dynamics.
  Changes to the Northern Ireland protocol remain a risk to the business where the future trading position with the EU is still evolving. The Directors monitor this position through internal and external sources to remain compliant and informed.
- Technological risk increases as sales via our digital channels increase. This area is monitored and managed through internal policies as well as through our third-party partners.
- Cross border activities, including changes to tariffs and trade policy, could impact operational costs. We continue to review our operational model to ensure we remain compliant and informed.
- Foreign currency risk could materially impact costs, which are carefully managed by the finance function.
- The Company is taking steps to improve its environmental impact from suppliers, packaging, and materials used within our products.

Financial risk management policies and objectives are disclosed in the Directors' Report.

Key performance indicators

The Directors use various financial and non-financial measures to assess the performance of the business. These indicators are measured at company, channel, and product level. The Directors believe that the most appropriate measure of overall business performance is turnover and earnings before interest, tax, depreciation, amortisation ('EBITDA') adjusted for currency exchange differences ('adjusted EBITDA') and adjusted EBITDA as a percentage return on turnover. Adjusting EBITDA for currency differences mirrors the measures used by Management on a day-to-day basis, which reflects a constant exchange rate.

Turnover for the period was £134.7m, a decrease of 3.6% on the prior period.

Adjusted EBITDA for the period under review was £15.9m (Adjusted EBITDA 2023: £25.9 million), a decrease of 38.6% on the previous period and delivered an 11.8% (2023: 18.5%) return on turnover.

	2024 £000	2023 £000
Profit for the period	10,595	19,790
Tax charge	3,628	3,915
Net interest expense	(974)	(953)
Depreciation	1,865	1,284
Amortisation	1,132	1,018
Impairment of fixed assets	438	-
Exchange differences	(818)	797
Adjusted EBITDA	15,866	25,851

	2024 £000	2023 £000
Turnover	134,735	139,806
Return on turnover	11.8%	18.5%

STRATEGIC REPORT (CONTINUED)
FOR THE PERIOD ENDED 28 DECEMBER 2024

Directors' statement of compliance with duty to promote the success of the Company

Section 172 of the Companies Act 2006 requires Directors to take into consideration the interests of stakeholders and other matters in their decision-making.

The Board regularly reviews the Company's principal stakeholders and how it engages with them, stakeholders include but not limited to:

- Shareholder(s);
- Company's employees;
- Tax authorities;
- Customers;
- Suppliers; and
- Community and the environment.

The Directors are fully aware of their responsibilities to promote the success of the Company in accordance with Section 172 of the Companies Act 2006. To ensure the Company was operating in line with good corporate practice, all Directors received refresher training on the scope and application of Section 172 in writing. This encouraged the Board to reflect on how the Company engages with its stakeholders and opportunities for enhancement in the future, which were considered at the Company's board meeting. As required, the Company Secretary will provide support to the Board to help ensure that sufficient consideration is given to issues relating to the matters set out in s172(1)(a)-(f).

In making decisions, the Directors have considered how best to balance the needs of different stakeholders; this includes considerations such as:

- the effect on the environment;
- the effect of decisions over the longer term;
- engaging in good business conduct; and
- acting fairly between shareholders.

We aim to work responsibly with our stakeholders. The Board regularly reviews its anti-corruption and anti-bribery, equal opportunities, and whistleblowing policies.

We aim to act fairly between stakeholder members for some decisions and acknowledge that matters do not effectively map to specific 'individual' shareholders.

Engagement with Shareholders

The Company is a private company, where members of the ultimate holding company are active Board members. The immediate parent company is Mustard Global Limited, who are registered as a tax resident in the UK.

The Directors consider what is most likely to promote the success of the Company for its members in the long term through management of both capital and resources.

Engagement with employees

We aim to put our customers and people at the heart of everything we do. We take great interest in the wellbeing of our team and allowing them to perform their role to the best of their ability.

The Board continues to enhance its methods of engagement with the workforce.

Engagement with employees (continued)

Employees are kept informed of matters of concern through regular newsletter updates from senior management, quarterly updates, and brand days. These communications help achieve a common awareness amongst employees, updating them on the strategic direction of the Company and of the financial and economic factors impacting the performance of the business.

Engagement with tax authorities

Through operations, the Company is subject to both direct and indirect taxes.

Taxes incurred include corporation tax, Value Added Tax (VAT), Global Sales Tax (GST), withholding taxes, Customs Duty, and Excise Duty.

Engagement with suppliers

We value all of our suppliers and pride ourselves on our collaborative, long-term relationships.

The directors review annually the Modern Slavery Statement, which explains the activities we have undertaken during the period to demonstrate our commitment to seeking good working practices for all throughout our supply chain. The report can be found at www.mintvelvet.com.

Engagement with customers

We actively engage with our customers throughout the communities in which we trade. We encourage our retail teams to actively engage with our customers, many of whom they know on a first name basis.

In our aim to monitor our effect on the environment, the Board obtained an external carbon emission report in order to present the Company's greenhouse gas emissions during the financial period. Details of this can be found within the Directors' report.

Engagement with community and environment

We care about our people and planet, which is why we are making it our mission to improve key areas of our business for a better tomorrow. We know there is much we can do, and believe it is our responsibility to use our success as a force for good.

Our #MVLife 2030 strategy sets out 8 new commitments that will help us become a more sustainable and circular business, anchored in 3 main pillars:

- People: caring for people and partners
- Planet: extending the life of our garments and protecting the planet
- Community: giving back to our community

This is an exciting journey, and we can't wait to share more with you as we progress.

This report was approved by the board and signed on its behalf.

Elizabeth Houghton
Director

Date: 12/8/2025

DIRECTORS' REPORT
FOR THE PERIOD ENDED 28 DECEMBER 2024

The Directors present their report and the financial statements for the period ended 28 December 2024.

Results and dividends

The profit for the period, after taxation, amounted to £10,595k *(2023 - £19,790k)*.

During 2024, a dividend of £25,875k was paid (2023: £20,000k).

Directors

The Directors who served during the period were:

Peter Davies
Elizabeth Houghton
Lisa Agar-Rea
Stuart Grant
Theodore Sheppard

Financial risk management objectives and policies

The Company's activities expose it to a number of financial risks, including foreign exchange risk, credit risk, liquidity risk, and political risk. The use of financial derivatives is governed by the Company's policies approved by the Board of Directors, which provide written principles on the use of financial derivatives to manage these risks. The Company does not use derivative financial instruments for speculative purposes.

Cash flow risk

The Company's sales and purchases are made in Sterling, Euros, and US Dollars, and therefore it is exposed to fluctuations in these exchange rates.

If Sterling weakens against the Euro and US Dollar, there is a consequent increase in raw materials bought in foreign currency, which increases the cost of sales. However, revenues earned in foreign currencies also appreciate when Sterling weakens from revaluation gains, creating some natural currency hedge.

A treasury policy that incorporates a hedging strategy has been implemented to manage the risk of exchange rate volatility.

Credit risk

The Company's credit risk is primarily attributable to its trade receivables, where the brand trades in department stores. Credit control is monitored by the finance team and managed by the Senior Management Team.

The credit risk on liquid funds and derivative financial instruments is limited because the counterparties are banks with high credit ratings assigned by international credit rating agencies.

The Company has a significant concentration of credit risk, with a small number of department stores.

Liquidity risk

The Company is profitable and cash generative, with working capital available.

The risk around liquidity is managed through monitoring cash flow daily and strong banking relationships, with regular reviews held. Group funding is also available where necessary.

Future developments

The Directors believe the brand is in a strong position to deliver its long-term plans for growth but remain cautious and continue to adapt plans accordingly following changes in the geopolitical landscape, evolving trade policy and related cost of living increases.

The Directors plan to focus on growing the online business both in the UK and internationally. Where opportunities arise, the Directors will continue to invest in the store portfolio.

Engagement with employees

We aim to put our customers and people at the heart of everything we do. We take great interest in the wellbeing of our team and allowing them to perform their role to the best of their ability.

The Board has enhanced its methods of engagement with the workforce. In that regard, the Board has worked closely with the Talent and Culture Director, who has designated responsibility for workforce engagement.

Employees are kept informed of matters of concern through regular newsletter updates from senior management, quarterly updates, and brand days. These communications help achieve a common awareness amongst employees, updating them on the strategic direction of the Company and of the financial and economic factors impacting the performance of the business.

Disabled employees

Applications for employment by disabled persons are always fully considered, bearing in mind the abilities of the applicant concerned. In the event of members of staff becoming disabled, every effort is made to ensure that their employment with the Company continues and that appropriate training is arranged. It is the policy of the Company that the training, career development, and promotion of disabled persons should, as far as possible, be identical to that of other employees.

Qualifying third party indemnity provisions

The Company has made qualifying third party indemnity provisions for the benefit of its Directors which were made during the period and remain in force at the date of this report.

Branches outside the United Kingdom

The Company does not have any branches outside of the United Kingdom.

Greenhouse gas emissions, energy consumption and energy efficiency action

In accordance with disclosure requirements for large companies under the Companies Act 2006, the table below shows the Company's greenhouse gas emissions during the financial period. The emissions stated below cover the 12 month period from January 2024 to December 2024.

The methodology used to calculate our emissions is based on HM Government Environmental Reporting Guidelines: including streamlined energy and carbon reporting guidance (March 2019) and UK Government GHG Conversion Factors for Company Reporting.

The Company continues to work with its suppliers to reduce carbon emissions by reducing consumption and exploring alternative solutions.

To compare the emissions efficiency of the business period on period as the business changes, metrics have been used to analyse emissions and to measure progress:

DIRECTORS' REPORT (CONTINUED)
FOR THE PERIOD ENDED 28 DECEMBER 2024

	2024 Tonnes of CO2 equivalent	2023 Tonnes of CO2 equivalent
Direct emissions: combustion of fuel and operation of facilities (scope 1)	-	-
Indirect emissions: electricity, heat, steam and cooling (scope 2)	1,189	203
Other indirect emissions relating to electricity transmission and distribution losses travel and non-company cars (scope 3)	196	156
Total	1,385	359
tCO2e per employee	1.24	0.45

Disclosure of information to auditors

Each of the persons who are Directors at the time when this Directors' report is approved has confirmed that:

- so far as the Director is aware, there is no relevant audit information of which the Company's auditors are unaware, and
- the Director has taken all the steps that ought to have been taken as a Director in order to be aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

Post balance sheet events

A dividend of £10,000k was paid post period end to Mustard Global Limited.

Going Concern

The Company's business activities, together with the factors likely to affect its future development, performance, and position, are set out in the Strategic Report. The Strategic Report further describes the financial position of the Company and its liquidity position. The Directors Report describes the Company's objectives, policies, and processes for managing its capital; its financial risk management objectives; details of its financial instruments and hedging activities; and its exposure to credit risk and liquidity risk.

The Directors have assessed the Balance Sheet and likely future cash flows of the Company at the date of approving the financial statements. The Directors believe that the company is well placed to manage its business risks successfully despite the current economic climate.

Further details regarding the adoption of the going concern basis can be found in note 2.3 in the financial statements.

DIRECTORS' REPORT (CONTINUED)
FOR THE PERIOD ENDED 28 DECEMBER 2024

Auditors

The auditors, BDO LLP, will be proposed for reappointment in accordance with section 485 of the Companies Act 2006.

Each of the persons who is a Director at the date of approval of this report confirms that:

- so far as the Director is aware, there is no relevant audit information of which the Company's auditor is unaware; and
- the Director has taken all the steps that he/she ought to have taken as a Director in order to make himself/herself aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of s418 of the Companies Act 2006.

This report was approved by the board and signed on its behalf.

Elizabeth Houghton
Director

Date: 12/8/2025

DIRECTORS' RESPONSIBILITIES STATEMENT FOR THE PERIOD ENDED 28 DECEMBER 2024

The Directors are responsible for preparing the Strategic report, the Directors' report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial period. Under that law the Directors have elected to prepare the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'. Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period.

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies for the Company's financial statements and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBER OF SABRE RETAIL FASHION LIMITED

Opinion on the financial statements
In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 28 December 2024 and of its profit for the period then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements of Sabre Retail Fashion Limited ("the Company") for the 52 week period ended 28 December 2024 which comprise Profit and Loss Account, Statement of Comprehensive Income, Balance Sheet, Statement of Changes in Equity and Notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland* (United Kingdom Generally Accepted Accounting Practice).

Basis for opinion
We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.
Independence
We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.
Conclusions relating to going concern
In auditing the financial statements, we have concluded that the Directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the Directors with respect to going concern are described in the relevant sections of this report.
Other information
The Directors are responsible for the other information. The other information comprises the information included in the Annual Report and Financial Statements, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Other Companies Act 2006 reporting
In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic report and the Directors' report for the financial period for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic report and the Directors' report have been prepared in accordance with applicable legal requirements.

In the light of the knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified material misstatements in the Strategic report or the Directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of Directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of Directors
As explained more fully in the Directors' Responsibilities Statement, the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements
Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Extent to which the audit was capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below:

Non-compliance with laws and regulations
Based on:

- Our understanding of the Company and the industry in which it operates;
- Discussion with management and those charged with governance and;
- Obtaining an understanding of the Company's policies and procedures regarding compliance with laws and regulations;

we considered the significant laws and regulations to be Companies Act 2006, Financial Reporting Standard 102 and UK Tax legislation.

Our procedures in respect of the above included:

- Review of minutes of meetings of those charged with governance for any instances of non-compliance with laws and regulations;
- Review of correspondence with tax authorities for any instances of non-compliance with laws and regulations;
- Review of financial statement disclosures and agreeing to supporting documentation;
- Involvement of tax specialists in the audit; and
- Review of legal expenditure accounts to understand the nature of expenditure incurred.

Fraud
We assessed the susceptibility of the financial statements to material misstatement, including fraud. Our risk assessment procedures included:

- Enquiry with management and those charged with governance regarding any known or suspected instances of fraud;
- Obtaining an understanding of the Company's policies and procedures relating to:
    - Detecting and responding to the risks of fraud; and
    - Internal controls established to mitigate risks related to fraud.
- Review of minutes of meetings of those charged with governance for any known or suspected instances of fraud;
- Discussion amongst the engagement team as to how and where fraud might occur in the financial statements;
- Performing analytical procedures to identify any unusual or unexpected relationships that may indicate risks of material misstatement due to fraud; and
- Considering remuneration incentive schemes and performance targets and the related financial statement areas impacted by these.

Based on our risk assessment, we considered the areas most susceptible to fraud to be improper revenue recognition through manual adjustments to revenue and management override of controls.

Our procedures in respect of the above included:

- Testing of journal entries throughout the year, which met a defined risk criteria, by agreeing to supporting documentation; and
- Assessing significant estimates and judgements applied in the preparation if the financial statements throughout the audit individually and in aggregate, to evaluate whether there were any indicators of bias in application if these judgements.

We also communicated relevant identified laws and regulations and potential fraud risks to all engagement team members who were all deemed to have appropriate competence and capabilities and remained alert to any indications of fraud or non-compliance with laws and regulations throughout the audit.

Our audit procedures were designed to respond to risks of material misstatement in the financial statements, recognising that the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery, misrepresentations or through collusion. There are inherent limitations in the audit procedures performed and the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely we are to become aware of it.

A further description of our responsibilities is available on the Financial Reporting Council's website at: https://www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

	Called up share capital	Cash flow reserve	Profit and loss account	Total equity
	£000	£000	£000	£000
At 1 January 2023	1	(95)	53,217	53,123
Comprehensive income/(loss) for the period				
Profit for the 52 week period	-	-	19,790	19,790
Cash flow hedges gains	-	124	-	124
Deferred tax movements in respect of other comprehensive income losses	-	(34)	-	(34)
Total comprehensive income/(loss) for the period	-	90	19,790	19,880
Distributions to owners				
Equity dividends paid	-	-	(20,000)	(20,000)
At 30 December 2023	1	(5)	53,007	53,003

The notes on pages 20 to 41 form part of these financial statements.

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 28 DECEMBER 2024

1. General information

Sabre Retail Fashion Limited is a private company, limited by shares, incorporated in England, United Kingdom under the Companies Act. The address of the registered office is given on the company information page. The nature of the Company's operations and its principal activities are set out in the Strategic Report.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention, modified to include certain items at fair value, and in accordance with Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The following principal accounting policies have been applied:

2.2 Financial reporting standard 102 - reduced disclosure exemptions

The Company is exempt by virtue of Section 400 of the Companies Act 2006 from the requirement to prepare group financial statements as it and its subsidiary financial statements are included in the consolidated financial statements of Mustard Global Limited. These financial statements present information about the Company as an individual.

The company has taken advantage of the following disclosure exemptions in preparing these financial statements, as permitted by the FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland":

- the requirements of Section 7 Statement of Cash Flows;
- the requirements of Section 11 Financial Instruments paragraphs 11.42, 11.44 to 11.45, 11.47, 11.48(a)(iii), 11.48(a)(iv), 11.48(b), and 11.48(c);
- the requirements of Section 12 Other Financial Instruments paragraphs 12.26 to 12.27, 12.29(a), 12.29(b), 12.29A, and 12.30; and
- the requirements of Section 33, with respect to transactions between wholly owned members of the group.

This information is included in the consolidated financial statements of Mustard Global Limited as at 28 December 2024, and these financial statements may be obtained from Companies House.

All references to Group refer to the corporate group headed by Mustard Global Limited and where applicable accounting policies have been aligned.

2. Accounting policies (continued)

2.3 Going concern

The Company's business activities, together with the factors likely to affect its future development, performance, and position, are set out in the Directors' Report. The Strategic Report describes the financial position of the Company and its liquidity position. The Directors Report describes the Company's objectives, policies, and processes for managing its capital; its financial risk management objectives; details of its financial instruments and hedging activities; and its exposure to credit risk and liquidity risk.

On considering the appropriate period, the directors have considered the period to December 2026.

In adopting the going concern basis for preparing the financial statements, the Directors have considered the business activities and the Company's principal risks and uncertainties, including those arising from the current economic climate. Whilst the impact on the business may potentially be material, the Company continues to have significant liquidity headroom to ensure it meets its obligations.

At the period end, the Company has a cash balance of £29.0m (2023: £40.9m). The Company has net current assets of £31.5m (2023: £46.2m).

Based on the strength of the Company's balance sheet, cash reserves, and cash projections for the period to December 2026, the Directors are satisfied that the Company has adequate resources to continue in operational existence for the foreseeable future (which under current UK generally accepted accounting principles means a period of at least 12 months from the date of signing the financial statements).

The Company has run a number of scenarios to consider the effects on its cash projections in the longer term. There are no concerns over liquidity in the period assessed. Therefore, the Directors have a solid expectation that the Company has adequate resources to continue in operational existence for the foreseeable future, and the going concern basis is considered appropriate in preparing the financial statements.

2.4 Foreign currency translation

Functional and presentation currency

The Company's functional and presentational currency is GBP.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions.

At each period end foreign currency monetary items are translated using the closing rate. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss except when deferred in other comprehensive income as qualifying cash flow hedges.

2. Accounting policies (continued)

2.5 Revenue

Turnover is recognised at the fair value of the consideration receivable for sales of goods in the ordinary course of business and excludes Value Added Tax.

Turnover from own stores and concessions is recognised at the point of sale when the goods have been provided. Turnover from wholesale and website activities is recognised on the date that the goods have been dispatched.

Revenue relating to expired gift cards is recognised once no legal obligation to honour the gift card remains. Revenue is recognised in "other income" within profit or loss.

2.6 Cost of sales

All expenses incurred in the operation of the retail channel are grouped and presented as costs of sales.

Management consider all expenses classified as cost of sale in the income statement to be directly and wholly attributable to the operation of the relevant income-generating channel.

2.7 Operating leases: the Company as lessee

Rentals paid under operating leases are charged to profit or loss on a straight-line basis over the lease term.

Benefits received and receivable as an incentive to sign an operating lease are recognised on a straight line basis over the lease term.

2.8 Research and development

In the research phase of an internal project it is not possible to demonstrate that the project will generate future economic benefits and hence all expenditure on research shall be recognised as an expense when it is incurred. Intangible assets are recognised from the development phase of a project if and only if certain specific criteria are met in order to demonstrate the asset will generate probable future economic benefits and that its cost can be reliably measured. The capitalised development costs are subsequently amortised on a straight-line basis over their useful economic lives, which range from 3 to 6 years.

If it is not possible to distinguish between the research phase and the development phase of an internal project, the expenditure is treated as if it were all incurred in the research phase only.

2.9 Interest income

Interest income is recognised in profit or loss using the effective interest method.

2.10 Interest expense

Interest costs are charged to profit or loss using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument.

2. *Accounting policies (continued)*

2.11 Pensions

Defined contribution pension plan

The Company operates a defined contribution plan for its employees. A defined contribution plan is a pension plan under which the Company pays fixed contributions into a separate entity. Once the contributions have been paid the Company has no further payment obligations.

The contributions are recognised as an expense in profit or loss when they fall due. Amounts not paid are shown in accruals as a liability in the Balance sheet. The assets of the plan are held separately from the Company in independently administered funds.

2.12 Current and deferred taxation

The tax expense for the period comprises current and deferred tax. Tax is recognised in the Profit and Loss Account, except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the Balance Sheet date in the countries where the Company operates and generates income.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the Balance Sheet date, except that:

- the recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits;
- any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met; and
- where they relate to timing differences in respect of interests in subsidiaries, associates, branches and joint ventures and the Company can control the reversal of the timing differences and such reversal is not considered probable in the foreseeable future.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the Balance Sheet date that are expected to apply to the reversal of timing difference.

2. Accounting policies (continued)

2.13 Intangible assets

Goodwill

Goodwill represents the difference between amounts paid on the cost of a business combination and the acquirer's interest in the fair value of the Group's share of its identifiable assets and liabilities of the acquiree at the date of acquisition. Subsequent to initial recognition, goodwill is measured at cost less accumulated amortisation and accumulated impairment losses. Goodwill is amortised on a straight line basis to the Profit and Loss Account over its useful economic life, which is deemed to be 5 years.

Software

Capitalised software includes the direct costs incurred from external providers. Research costs and internally generated costs are not capitalised.

The software development costs are recognised as an intangible asset if the following criteria a met:

- Software will generate probable future economic benefits.
- There is an intention to complete the software.
- There are sufficient resources to finalise the software.
- There is the ability to use/sell the software.
- The development is technically feasible.
- Expenditure for development can be reliably measured.

Software costs are amortised on a straight line basis to the Profit and Loss Account over its useful economic life, which is deemed to be 3 to 6 years. Any software's that is under development are held at cost, less any impairment and presented as "intangibles under development".

Other intangible assets

Intangible assets are initially recognised at cost. After recognition, under the cost model, intangible assets are measured at cost less any accumulated amortisation and any accumulated impairment losses. Other intangible assets are amortised on a straight line basis to the Profit and Loss Account over its useful economic life, which is deemed to be 5 years.

2.14 Tangible fixed assets

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

2. Accounting policies (continued)

2.14 Tangible fixed assets (continued)

Depreciation is charged so as to allocate the cost of assets less their residual value over their estimated useful lives, using the straight-line method.

Depreciation is provided on the following basis:

Fixtures and fittings	- 3 to 7 years
Computer equipment	- 3 to 7 years

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in profit or loss.

2.15 Impairment of fixed assets and goodwill

Assets that are subject to depreciation or amortisation are assessed at each Balance Sheet date to determine whether there is any indication that the assets are impaired. Where there is any indication that an asset may be impaired, the carrying value of the asset (or cash-generating unit ('CGU') to which the asset has been allocated) is tested for impairment. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's (or CGU's) fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (CGUs). Non-financial assets, apart from goodwill, that have been previously impaired are reviewed at each Balance Sheet date to assess whether there is any indication that the impairment losses recognised in prior periods may no longer exist or may have decreased.

2.16 Valuation of investments

Investments in subsidiaries are measured at cost less accumulated impairment.

2.17 Stocks

Stocks are stated at the lower of cost and net realisable value, being the estimated selling price less costs to complete and sell. Stock is valued at landed cost on a weighted average basis.

At each Balance Sheet date, stocks are assessed for impairment. If stock is impaired, the carrying amount is reduced to its selling price less costs to complete and sell. The impairment loss is recognised immediately in profit or loss.

2.18 Debtors

Short-term debtors are measured at transaction price, less any impairment.

2.19 Cash at bank and in hand

Cash at bank and in hand comprise of cash balances at bank or in the business and on-call deposit.

2. Accounting policies (continued)

2.20 Creditors

Short term creditors are measured at the transaction price. Other financial liabilities, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method.

2.21 Provisions for liabilities

Provisions are recognised when an event has taken place that gives rise to a legal or constructive obligation, a transfer of economic benefits is probable and a reliable estimate can be made.

Provisions are measured as the best estimate of the amount required to settle the obligation, taking into account the related risks and uncertainties.

Increases in provisions are charged as an expense to profit or loss.

Provisions are charged as an expense to profit or loss in the period that the Company becomes aware of the obligation, and are measured at the best estimate at the Balance Sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When the obligations are satisfied, they are offset to the provision carried in the Balance Sheet.

2.22 Financial instruments

The Company only enters into basic financial instrument transactions that result in the recognition of financial assets and liabilities like trade and other debtors and creditors, loans from other third parties, and loans to related parties.

Debt instruments (other than those wholly repayable or receivable within one year), including loans and other accounts receivable and payable, are initially measured at the present value of the future cash flows and subsequently at amortised cost using the effective interest method. Debt instruments that are payable or receivable within one year, typically trade debtors and creditors, are measured, initially and subsequently, at the undiscounted amount of the cash or other consideration expected to be paid or received.

Financial Assets and Liabilities
Financial assets, other than investments and derivatives, are initially measured at transaction price (including transaction costs) and subsequently held at amortised cost, less any impairment.

2. Accounting policies (continued)

2.22 Financial instruments (continued)

Financial liabilities and equity are classified according to the substance of the financial instrument's contractual obligations, rather than the financial instrument's legal form. Financial liabilities, excluding convertible debt and derivatives, are initially measured at transaction price (after deducting transaction costs) and subsequently held at amortised cost.

Hedge accounting

The Company has entered into forward and options to manage its exposure to currency movements on its stock purchases. These derivatives are measured at fair value at each reporting date. To the extent the hedge is effective, movements in fair value are recognised in other comprehensive income and presented in a separate cash flow hedge reserve. This amount is reclassified from the cash flow hedge reserve to profit or loss in the same period or periods during which the hedged expected future cash flows affect profit or loss. Any ineffective portions of those movements are recognised in profit or loss for the period.

2.23 Dividends

Equity dividends are recognised when they become legally payable. Interim equity dividends are recognised when paid. Final equity dividends are recognised when approved by the shareholders at a board meeting.

3. Judgements in applying accounting policies and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in note 2, the Directors are required to make judgements, estimates, and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying the Company's accounting policies

The following are the critical judgements that the Directors have made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognised in the financial statements.

Impairment of intangible and tangible fixed assets
At each reporting date, the Company exercises judgment in assessing whether there are any indicators of impairment in relation to its tangible and intangible fixed assets. This assessment considers a range of factors, including the economic viability of each asset or cash-generating unit (CGU), current and expected future financial performance, adverse changes in the market or operating environment, and evidence of obsolescence or physical damage.

Where indicators of impairment are identified, the Company estimates the recoverable amount of the relevant asset or CGU. This requires management to make estimates and assumptions regarding future cash flows, long-term growth rates, and appropriate discount rates. The recoverable amount is determined

3. Judgments in applying accounting policies (continued)

as the higher of fair value less costs to sell and value in use.

For the purposes of impairment testing, each branch or separately identifiable project is considered a CGU. An impairment loss is recognised when the recoverable amount of a CGU is less than its carrying amount, with the difference charged to the Profit and Loss account.

During the year, management identified indicators of impairment for certain CGUs. As a result, impairment testing was performed and an impairment charge of £438k (2023: £nil) was recognised in the Profit and Loss account.

Key sources of estimation uncertainty

The following are the key sources of estimation uncertainty that the Directors have made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognised in the financial statements.

Dilapidations & onerous lease provision
Stores held under operating leases are reviewed annually for dilapidations. This requires management's best estimates of the costs that will be incurred based on historical trends and contractual requirements. At period end, the dilapidations provision held in the Balance Sheet was £874k (2023: £1,044k). During the period, the Company utilised £195k (2023: £48k) of the provision. A charge of £26k (2023: £694k) was charged to the Profit and Loss account.

Returns provision
The online returns provision is calculated from web order returns received in the new financial period, where the original sale was recognised in the current financial period. The store returns provision was calculated using the return rate from the first two weeks of the new financial period.

At period end, the returns provision included within the Balance Sheet was £3,105k (2023: £3,191k). During the period, the Company recognised a net income of £86k as a result of reducing the provision (2023: income of £489k).

Stock provision
The Company calculates a stock obsolescence provision based on the age, net realisable value and conditions of stock currently held on the Balance Sheet. At the period end, the stock obsolescence provision included within the Balance Sheet was £1,014k (2023: £822k). During the period, the Company recognised a net expense of £192k (2023: £67k expense).

4. Turnover

All turnover relates to the sale of goods net of applicable sales taxes.

Analysis of turnover by country of destination:

	2024 £000	*2023* *£000*
United Kingdom	**134,735**	*139,806*
	134,735	*139,806*

5. Other operating income

	2024 £000	2023 £000
Other operating income	1,213	1,933
Royalty receivable	142	220
	1,355	2,153

Other operating income relates to management charges, expired gift cards and other miscellaneous income.

6. Operating profit

The operating profit is stated after (crediting)/ charging:

	2024 £000	2023 £000
Exchange differences	(818)	797
Operating lease rentals	4,892	4,198
Impairment on inventory	192	67
Disposal of fixed assets	-	5
Depreciation of tangible fixed assets	1,865	1,284
Amortisation of intangible fixed assets	1,132	1,018
Impairment of tangible fixed assets	438	-
Defined pension contribution	471	467

7. Auditors' remuneration

During the period, the Company obtained the following services from the Company's auditors:

	2024 £000	2023 £000
Fees payable to the Company's auditors for the audit of the Company's financial statements	181	179

The Company has taken advantage of the exemption not to disclose amounts paid for non-audit services as these are disclosed in the consolidated accounts of the parent Company.

8. Employees

Staff costs, including Directors' remuneration, were as follows:

	2024 £000	2023 £000
Wages and salaries	16,271	17,177
Social security costs	1,332	1,363
Cost of defined contribution scheme	471	467
	18,074	19,007

The average monthly number of employees, including the Directors, during the period was as follows:

	2024 No.	2023 No.
Administrative staff	162	147
Store staff	623	655
Directors	5	5
	790	807

9. Directors' remuneration

	2024 £000	2023 £000
Directors' emoluments	1,445	2,224
	1,445	2,224

The highest paid Director received remuneration of £652 thousand *(2023 - £804 thousand)*.

During the period, £nil (2023: £nil) was paid to a defined contribution pension scheme in respect of the directors.

Directors' also provide services at group level, and the expense related to these services are included in the consolidated financial statements of Mustard Global Limited.

10. Interest receivable and similar income

	2024 £000	2023 £000
Bank interest receivable	974	953

11. Taxation

	2024 £000	2023 £000
Corporation tax		
Current tax on profits for the year	3,557	3,583
Adjustments in respect of previous periods	(101)	(10)
	3,456	3,573
Total current tax	3,456	3,573
Deferred tax		
Origination and reversal of timing differences	83	335
Changes to tax rates	89	7
Total deferred tax	172	342
Tax on profit	3,628	3,915

11. Taxation (continued)

Factors affecting tax charge for the period

The tax assessed for the period is higher than *(2023 - lower than)* the standard rate of corporation tax in the UK of 25% *(2023 - 23.52%)*. The differences are explained below:

	2024 £000	*2023 £000*
Profit on ordinary activities before tax	**14,223**	*23,705*
Profit on ordinary activities multiplied by standard rate of corporation tax in the UK of 25% (2023 - 23.52%)	**3,552**	*5,575*
Effects of:		
Expenses not deductible for tax purposes	**108**	*133*
Adjustments to tax credit in respect of prior periods	**(101)**	*(10)*
Adjustments to tax charge in respect of previous periods - deferred tax	**89**	*7*
Remeasurement of deferred tax for changes in tax rates	**-**	*16*
Group relief	**(20)**	*(1,806)*
Total tax charge for the period	**3,628**	*3,915*

Factors that may affect future tax charges

The UK corporation tax rate was increased to 25% from 1 April 2023.

Deferred taxes at the Balance Sheet date have been calculated using a tax rate of 25% (2023: 25%).

The Company and its subsidiaries, as part of the wider group, are subject to Pillar 2 legislation which has been enacted or substantively enacted in certain jurisdictions in which the wider group operates, for the financial year beginning on or after 1 January 2024. The Group has performed an assessment of its exposure to Pillar 2 income taxes and based on this assessment, no current tax charge is required for the Company or the Group in respect of Pillar 2.

12. Dividends

	2024 £000	*2023 £000*
Dividends paid	**25,875**	*20,000*

High Wycombe
HP11 1NL

The dormant companies were entitled to exemption from audit under section 480 of the Companies Act 2006 relating to Dormant companies: conditions for exemption from audit.

16. Stocks

	2024 £000	2023 £000
Finished goods and goods for resale	16,739	11,451
	16,739	11,451

The difference between purchase price or production cost of stocks and their replacement cost is not material.

17. Debtors

	2024 £000	2023 £000
Trade debtors	6,500	5,012
Amounts owed by group undertakings	720	6,390
Other debtors	160	89
Prepayments and accrued income	3,185	2,603
Corporation tax receivable	-	405
Derivative financial asset	212	51
	10,777	14,550

Amounts owed from credit cards are included within trade debtors.

Amounts owed by Group undertakings are repayable on demand.

18. Cash at bank and in hand

	2024 £000	2023 £000
Cash at bank and in hand	28,993	40,865

19. Creditors: Amounts falling due within one year

	2024 £000	2023 £000
Trade creditors	5,936	7,083
Corporation tax	169	-
Other taxation and social security	4,954	4,604
Accruals and deferred income	13,941	8,523
Derivative financial liability	9	433
	25,009	20,643

20. Creditors: Amounts falling due after more than one year

	2024 £000	2023 £000
Accruals and deferred income > 1 yr	1,136	898

The other creditors due in more than one year relate to rent free periods for stores held under operating leases.

21. Financial instruments

	2024 £000	2023 £000
Financial assets		
Forward foreign currency options not hedged	212	51
Financial assets held at amortised cost	36,213	52,267
	36,425	52,318
Financial liabilities		
Forward foreign currency options hedged	(9)	(433)
Financial liabilities held at amortised cost	(19,877)	(15,606)
	(19,886)	(16,039)

Forward foreign currency contracts are valued using quoted forward exchange rates and yield curves derived from quoted interest rates matching maturities of the contracts.

22. Deferred taxation

	2024 £000
At beginning of period	(659)
Charged to profit or loss	(172)
Charged to other comprehensive income	(55)
At end of period	(886)

22. Deferred taxation (continued)

The provision for deferred taxation is made up as follows:

	2024 £000	2023 £000
Fixed asset timing differences	(856)	(867)
Short term timing differences	(30)	208
	(886)	(659)

23. Provisions

	Dilapidation & Onerous Lease provision £000
At 31 December 2023	1,043
Charged to profit or loss	26
Utilised in period	(195)
At 28 December 2024	**874**

Provisions for dilapidations are recognised on a lease by lease basis and are based on the Company's best estimate of the likely committed cash outflow.

Dilapidation provisions are to be utilised once the Company has ceased trading in a store and all outstanding obligations to the landlord are discharged.

24. Share capital

	2024 £000	2023 £000
Allotted, called up and fully paid		
824,972 (2023 - 824,972) Ordinary shares of £0.001 each	1	1

25. Reserves

Cash flow reserve

The cash flow reserve represents cumulative gains or losses in relation to hedged derivatives.

Profit and loss account

The profit and loss account represents cumulative profits or losses, net of dividends paid and other adjustments.

26. Pension commitments

The Company operates a defined contributions pension scheme. The assets of the scheme are held separately from those of the Company in an independently administered fund.

The pension charge represents contributions payable by the company to the fund and amounted to £471k (2023: £467k), including Company contributions amounting to £nil (2023 - £91k) were payable to the fund at year end and are included in creditors.

27. Commitments

Commitments under operating leases

At 28 December 2024 the Company had future minimum lease payments due under non-cancellable operating leases for each of the following periods:

	28 December 2024 £000	*30 December 2023 £000*
Not later than 1 year	**4,836**	*4,194*
Later than 1 year and not later than 5 years	**9,981**	*7,721*
Later than 5 years	**1,306**	*815*
	16,123	*12,730*

All operating lease commitments relate to land and buildings. There are no operating lease commitments for plant and machinery.

Capital commitments

	2024 £000	*2023 £000*
Estimated amount of contracts remaining to be executed on capital account and not provided for	**651**	*2,416*

28. Related party transactions
